

ACO GULLY 157 – Bodies for 200mm grates

Part No.
141986

ACO Gully 157, adjustable height body with vinyl clamp top section and horizontal 110mm outlet and removable foul air trap, grade 304 stainless steel

Product Features

1. Hygienic design according to EN 1672 and ISO 14159

- Deep drawn body ensures smooth contours eliminating crevices for bacterial growth
- Rounded internal corners of 3mm and 10mm to enable easy cleaning
- Drainable design
- No overlapped welds and no welded corners

2. Adjustable height tops to suit finished floor level

3. Vinyl clamp top section provides superior seal between gully and vinyl sheet floor applications

4. Solid edge in-fill

- Solid edge infill improves durability and stability with the surrounding floor, minimising floor cracks

5. Removable internal foul air trap design minimises evaporation and enables easy cleaning

- Minimises evaporation
- Enables easy cleaning

6. Manufactured from grade 304 stainless steel

7. Optional accessories

- Removable and fixed strainers for sediment retention
- Retention chains for strainers and foul air trap

8. Hydraulic data

- Minimum: 2.8 L/s
- Maximum: 3.3 L/s

Note: All dimensions are in mm

ACO Specification Information

Specification Clause

The gully shall be ACO Gully 157, adjustable height body with vinyl clamp top section and horizontal 110mm outlet and removable foul air trap, grade 304 stainless steel (Part No. 141986). Available with optional fixed strainer (Part No. 142001), removable strainer (Part No. 408203) and retention chains.

Materials and Design

The gully shall be manufactured in compliance with EN 1672 Food processing machinery basic concepts, ISO 14159 Hygiene requirements for the design of machinery and EHEDG:

- The gully body shall be deep drawn to ensure rounded internal corners no less than 3mm for ease of cleaning;
- The gully shall be designed to ensure complete drainage, with no overlapped welds or welded corners;
- The gully shall come complete with solid edge infill to enhance durability when under load.

General Installation Illustration

Adjustable height gully with internal FAT in suspended slab with a tile floor finish connecting into stainless pipe.

- 1** Tile
- 2** Flexible sealant
- 3** Cement/tile adhesive
- 4** Screed
- 5** Waterproof membrane (liquid)
- 6** Waterproofing Bonding Flange
- 7** Suspended concrete slab
- 8** Internal FAT

Note: The illustration is shown for guidance only and shows a typical drain and not necessarily the specific type described on the data sheet.
